Managing your family's money can be challenging, especially in times of economic uncertainty. This basic personal finance workshop series will focus on helping you to identify actions you can take to manage your money more effectively and reach your goals, such as buying a home or a car, saving for further education, starting a business or beginning to plan for retirement.

*Topics to be addressed will include:*

- How values and attitudes influence financial behavior
- Reviewing your current spending practices
- Communicating about financial issues
- How to prepare for financial emergencies
- Creating your M.A.P. (Money Action Plan) for your future
- Dealing with your credit history
- Managing debt
